

Hike the Hudson Valley

Sponsor a hiking guide and intersect with thousands of hikers making plans near you.

The Opportunity

The constant streams of cars back and forth to local outdoor destinations should tell you something: people are craving new adventures. The cars don't show up out of nowhere, but are the result of lots of people Googling and making plans for a day or weekend. These people need our help: not only do they need information about hikes, but they need to know where to stay, where to grab lunch, who the best nearby real estate agent is, or the best place to grab cocktails later.

Our site is the #1 authority for dozens of Hudson Valley and Catskills hikes on Google.

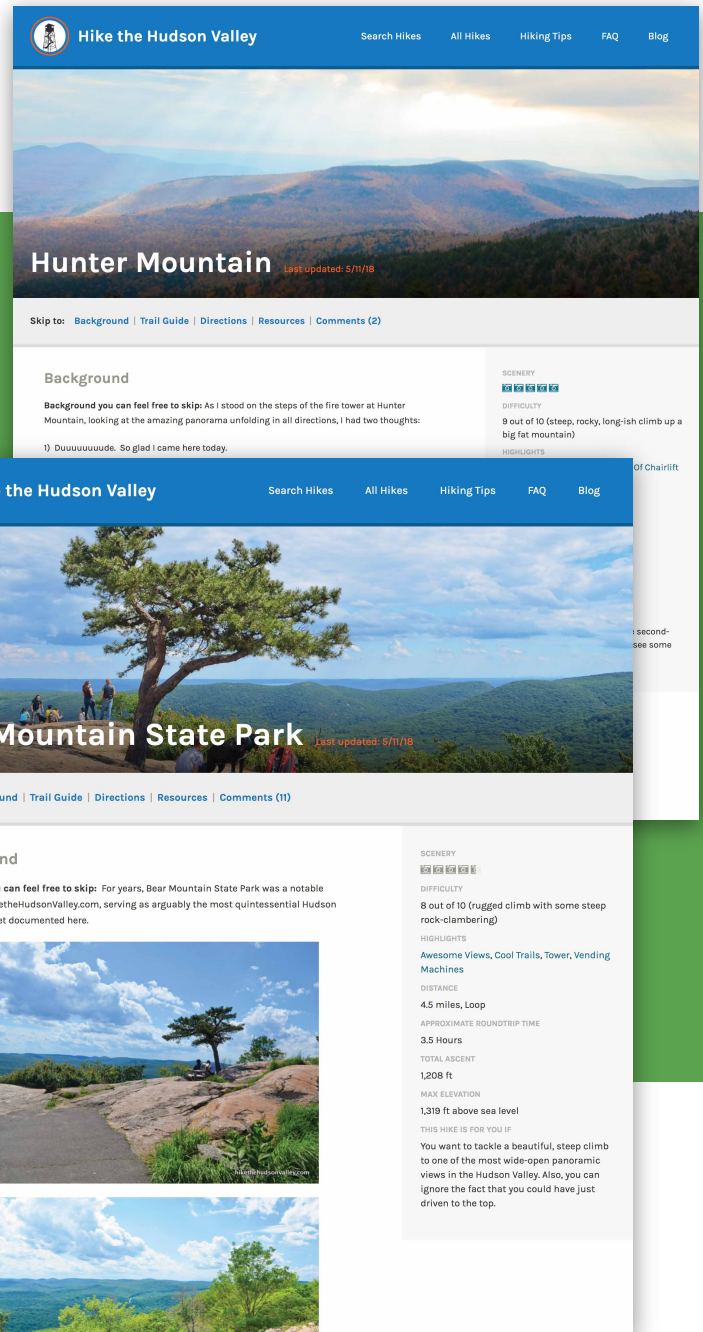

And for the first time, we're opening it up for sponsorship and partnership opportunities.
